## Experience

UI Web Developer @ Canadian Red Cross

March 2022 - Present | Maternity Leave Cover

- Develop and maintain front-end web pages with HTML5, CSS3, and JavaScript.
- Works in an Agile environment using Jira project management.
- Collaborates closely with the Design and Marketing teams creating mock-ups for updated, modern, accessible UI web parts and pages.
- Experience with accessibility audit reports using tools to ensure AODA standards and WCAG 2.0 guidelines for redcross.ca, and for other Red Cross teams were being met.

Pension Technician @ LifeWorks / formerly Morneau Shepell

2019 - 2022

- Calculated and issued benefit payments in accordance with plan rules and legislation.
- Answered queries from clients, plan members and trustees, providing relevant information and appropriate follow-up.

## Projects

CrossPlay @ Canadian Red Cross

[www.redcross.ca/crossplay/](http://www.redcross.ca/crossplay/)

Developed using Kentico CMS, this custom site is used for gamers to support the CRC fundraising. Worked on the design for mobile and desktop views. Collaborated with design and full-stack developer to build this site.

Meme in a Giffy @ Juno College

[Github Repo](#) / [Live Site](#)

A group-programmed React application that allows users to generate their own memes by inputting text and saving their favourite results by using Firebase.
